

DATA / SPECIFICATION SHEET

Fire Blanket

DESCRIPTION

Our Fire Blanket made from woven glass fibre which is totally asbestos-free. At Masterpac, there are many styles and sizes available for customers. These blankets, when draped over a fire, smother the danger by starving the fire of oxygen. Moreover, it can also be used to wrap around a person whose clothes are on fire. It suitable for using in a variety of different environments including refineries, factories, laboratories etc.

SERVICE

Our fire blanket manufactured under standard BS EN 1869:1997 and available in different size. This makes these fire blankets suitable for commercial kitchens, personnel protection, welding splatter and workshop use as they can also be wrapped around someone on fire.

Suitable for: commercial kitchen areas, welding areas, personnel protection, workshops, flammable liquid risks
